June 6, 1997

Mr. Ron McClenan
Director - LEC Services
Excel Telecommunications, Inc.
8750 N. Central Expressway, Ste. 1700
Dallas, TX 75234

Dear Mr. McClenan:

Pursuant to the Order on Reconsideration, FCC 96-439 (Nov. 8, 1996), each LEC with annual toll revenues in excess of \$100M, is responsible for payment of its proportionate amount of the flat-rate interim compensation charge of \$45.85 per payphone to payphone service providers (PSPs). The Order on Reconsideration (paragraphs 131 and 132) also enumerated certain requirements applicable to all LEC's and required that RBOC LECs have an approved CEI plan. To be eligible to receive compensation, the FCC determined that a LEC, including RBOC LECs, must be able to certify that the LEC has complied with all applicable requirements.

SWBT has previously provided such certification to Excel Telecommunications, Inc. by letter dated June 4, 1997. Accordingly, Southwestern Bell Telephone Company (SWBT) will be forwarding a bill for compensation to you in the near future. At that time, two documents will be sent to you, the Ancillary Services Billing System Summary Report (the "AS310 report") and a Billing Document. The first bill will cover the time period April 15, 1997 through May 31, 1997. Thereafter, you will receive a bill for each succeeding calendar month.

The AS310 report will be created monthly and will include the number of SWBT payphones subject to billing and associated charges, itemized by state, and will be mailed via regular U.S. mail during the second week of the month. This will be your official notification of charges due.

The Billing Document will list the current charges due for the preceding month, and any unpaid balance from previous months. The main purpose of the Billing Document is to provide you with a return document for payment.

We intend to send the first bill directly to you. Payment is due fifteen days after the June 30, 1997 COPT Quarterly Data File is issued. Thereafter, we will bill monthly for interim payphone compensation, and payment will be due thirty days after each bill is issued. If future bills should be directed to another person or address, or if you have any specific questions regarding your bill, or wish to propose other billing terms, please advise Ron Barnett at (210)351-7846.

Sincerely,

A handwritten signature in cursive script, appearing to read "Larry Hull", written in dark ink.

SWBT has previously provided such certification to Midcom Communications, Inc. by letter dated June 4, 1997. Accordingly, Southwestern Bell Telephone Company (SWBT) will be forwarding a bill for compensation to you in the near future. At that time, two documents will be sent to you, the Ancillary Services Billing System Summary Report (the "AS310 report") and a Billing Document. The first bill will cover the time period April 15, 1997 through May 31, 1997. Thereafter, you will receive a bill for each succeeding calendar month.

The AS310 report will be created monthly and will include the number of SWBT payphones subject to billing and associated charges, itemized by state, and will be mailed via regular U.S. mail during the second week of the month. This will be your official notification of charges due.

The Billing Document will list the current charges due for the preceding month, and any unpaid balance from previous months. The main purpose of the Billing Document is to provide you with a return document for payment.

We intend to send the first bill directly to you. Payment is due fifteen days after the June 30, 1997 COPT Quarterly Data File is issued. Thereafter, we will bill monthly for interim payphone compensation, and payment will be due thirty days after each bill is issued. If future bills should be directed to another person or address, or if you have any specific questions regarding your bill, or wish to propose other billing terms, please advise Ron Barnett at (210)351-7846.

Sincerely,

A handwritten signature in black ink, appearing to read "Larry Hull", written in a cursive style.

Larry Hull
